SCALE LITE

SCALE FOR TRACTORS

Scale Lite is a scale designed for agricultural equipment. Installed directly on the tractor, it provides accurate, reliable weighing of hay and corn silage as well as dry or wet bales. Simple to use, rugged and quick to install, it helps producers better control quantities and optimize feed preparation.

Weight in bucket

Weight in trailer

Combined weight

Display in KG or LB

Weight is captured automatically as the bucket passes the weighing height, adjustable to the trailer height — no stop required.

COMPATIBILITY

Compatible with all types of agricultural tractors. Can be used with a bucket, forks or a bale spear.

TABLET FEATURES

Height reference: The built-in inclinometer shows bucket height, helping avoid obstacles when dumping material or feed. The operator can see the weight in the bucket, in the truck and the combined totals.

Precise rations: Exact ingredient weighing ensures balanced rations tailored to the herd's needs.

Time savings: Weigh directly from the tractor during feed preparation.

Better quantity control reduces costly losses.

Perfect for weighing hay bales.

CUSTOMER INSTALLATION KIT

The Scale Lite customer installation kit makes installation quick and easy.
